MEDI-SPA MENU

Our Medi-Spa treatments use the advanced technology of the Efficacy3 machine which has 3 dynamic platforms:

- Radio Frequency
- Digital Transdermal Induction
- Vacuum Push-Pull

These treatments provide effective and innovative solutions to correct the main skin problems such as:

Wrinkles	Rosacea
Pigmentation	Acne
Flaccidity	Cellulite

The advanced Efficacy3 machine is combined with Germaine de Capuccini's Synergygagge cosmeceutical products which contain effective and safe formulations in maximum concentrations to treat dermatological problems. This unique combination of advance technology with powerful ingredients provides immediate and lasting results.

Your therapist can create a tailored programme of treatments to target your skin concerns. A course of treatments will be recommended for maximum results, followed by a maintenance programme.

To maximise results we recommend a course of 6. Book a course of 6 treatments and pay only for 5.

TIME ESSENCE THERAPIES

All 30 mins - £65

The following treatments use our Radio Frequency or Vacuum Push-Pull therapy programs. These short sharp treatments quickly target areas of concerns and are perfect for those short of time.

Choose from one of the following:

- Wrinkles & Lifting
- Lift Eye Therapy
- Myo-Toning (facial muscle toning)
- Drainage (stimulating the lymphatic system)

EPIDERMAL GROWTH FACTOR TREATMENT

THE ULTRA REGENERATING FACIAL

Germaine de Capuccini have collaborated with the University of Granada to create a non-invasive Epidermal Growth Factor treatment. Treating the face globally, this facial is clinically proven to reduce the length and depth of wrinkles whilst work on all other ageing concerns including flaccidity, pigmentation and dull tone.

The treatment is revolutionary due to the combination of ingredients:

- Epidermal Growth Factors: replicates the functions of natural EGF. Activates collagen synthesis, protects against environmental damage, preventative anti-ageing action.
- Highly Purified Hyaluronic Acid: desensitises the skin and increases hydration.

The EGF + HA Formula is worked into the skin using the DTI programme for instant results that improve over two weeks. Our full treatment course is recommended for maximum results.

Full Treatment Course: 2 x 50 mins - £360

(Full course includes two treatments taken over 6 weeks and 2 homecare products worth over £100.)

Single Treatment: 50 mins - £180

INTENSE FACIAL TREATMENTS

Targeting concerns with Efficacy3

CLARIFYING ANTI-PIGMENTATION

50 mins - £99

Reduces areas of pigmentation and darkspots whilst providing a more even tone. This treatment begins with a Glycolic Peel to renew the skin's surface combined with a gel to induce carboxytherapy and boost circulation. A fluid concentrate is applied using our DTI program penetrating the products to the dermal layers. This is followed by an intensive mask to prevent and reduce darkspots whilst deeply hydrating the skin.

INTENSIVE CORRECTION ACNE / ROSACEA

50 mins - £99

Eliminates imperfections, reduces oil secretion, heals skin and reduces inflammation. Using the DTI Programme and active ingredients such as Aslavital and Ghassoul Clay with anti-septic properties to detoxify, soothe and heal the skin. The ideal treatment for clients suffering with acne, rosacea or high sensitivity.

EYE LINES AND LIFTING CONCENTRATE

50 mins - £99

Targeting the delicate eye contour, this treatment tightens collagen fibres and increases new collagen production to decrease expression lines and wrinkles. Commencing with a facial cleanse and exfoliation, followed by Radio Frequency to target the skins heat shock proteins and encourage natural elasticity. Fluid drainage is improved using the Vaccum Push-Pull therapy leaving the skin tightened and hydrated.

THE ULTIMATE LIFT (IN) AT KSPA

80 minutes - £150

Lifts, firms and redefines the facial contours. Revolutionising non-surgical lifting, this unique treatment works on vertical lifting, lateral lifting and volume. Define Lift includes a unique sculpting massage that works on the face from every angle to rebuild the skin's support structure. Exclusive ingredients are combined with DTI, Radio Frequency and Vacuum Lifting to tone facial muscles, tighten skin and provide drainage.

INTENSIVE WRINKLE TREATMENT

50 mins - £99

For deep and fine lines. This treatment repairs damaged tissue and stimulates the synthesis of new collagen using Radio Frequency and Vacuum Push Pull therapy to target the skins natural heat shock proteins, tightening and firming the skin. Concentrated collagen extracts with tetra peptides decrease the wrinkles while improving firmness.

COMPLETE REVITALISATION

80 mins - £150

Radio frequency stimulates a biological activation of the middle and deeper layers of the dermis. Known for slowing down and protecting the skin against premature ageing, dehydration and other concerns caused by stress exposure to the skin. This treatment provides rest and wellbeing incorporated with hyaluronic acid or vitamin based products to achieve a healthy appearance, combined with a glycol-peel, and hydrolysed collagen mask.

BODY TREATMENTS

All of our body treatments are 30 minutes.

Why not upgrade your treatment to 50 minutes which includes a body exfoliation or 80 minutes which includes a body exfoliation and wrap.

SHAPE & LIFT

30 mins - £70 / 50 mins - £99 / 80 mins - £130

A shaping treatment using Radio Frequency to target specific problem areas aiding the elimination of retain liquids, toxins and waste products. This treatment reduces volume whilst improving blood flow and oxygenation at a cellular level.

POST NATAL RECOVERY

30 mins - £70 / 50 mins - £99 / 80 mins - £130

Indicated for reducing volume, improving the tone and suppleness of the skin in the body most affected after pregnancy. Accelerates the repair and regeneration of the skin tissues while improving the anti-inflammatory process and facilitating the drainage of liquids using the DTI and Radio frequency programs increase circulation and target the elasticity and skin tone.

LIPO REDUCE

30 mins - £70 / 50 mins - £99 / 80 mins - £130

Reduces stubborn areas of fatty tissue and cellulite. This treatment uses Radio Frequency with Vacuum Push-Pull which produces fluidification of accumulated fat and helps to eliminate the fibrotic tissue that appears in cellulite. An application of concentrated ingredients are applied including Alaria Esculenta to stimulate collagen production and Rhodisterol to stimulate the breakdown of fats.

THE BODY FIRMER

30 mins - £70 / 50 mins - £99 / 80 mins - £130

A tightening and toning treatment using Radio Frequency aimed at improving the suppleness of the skin. The collagen fibres are shortened to give an immediate effect with long term results through production of new collagen in the skin. Ideal for targeting problem areas with lack of skin firmness such as the arms, abdomen, buttocks or thighs.

STRETCH MARK REPAIR

30 mins - £70 / 50 mins - £99 / 80 mins - £130

An effective treatment for both new red and elevated stretch marks and older white and sunken lines. While this treatment is designed for improvement not elimination the results are highly visible, improving the structure of the connective tissue and increasing the suppleness and tone.

BUST INTENSIVE

30 mins - £70 / 50 mins - £99 / 80 mins - £130

Repairs deteriorated skin tissue caused by natural aging, pregnancy or sun damage. Radio frequency used with Alaria Esclenta extract boosts collagen production and increases oxygenation and nutrition to the delicate area of the bust.
