K West Hotel & Spa

Commitment to Sustainability

Here at K West Hotel & Spa we are committed to reducing our impact on the local community, environment and planet. We will work diligently and with social responsibility to make it happen.

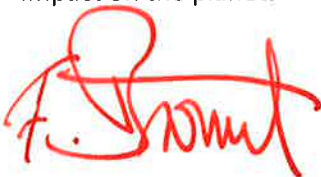

We are also committed to teaching our team how they can work to reduce their carbon footprint in their own lives, including their homes and we have conducted training sessions, and will continue to do so in the years ahead.

We will continue to work with local suppliers as much as possible, but where we have to look further afield we will select companies with evidenced green credentials and a similar environmental ethos as ourselves in order to support our commitment.

Energy efficiency will continue to be a key focus in the years ahead and we will continually review and update procedures and technology in order to keep our energy consumption to a minimum. We will work tirelessly to reduce our waste and will aim to recycle 100% of all waste produced.

K West Hotel & Spa will also continue to work and support the local community and charities to enhance and work alongside the good work of Hammersmith and Fulham Council.

We recognise and accept that our commitment to sustainability will require us to continually reassess all that we do and look at alternative ways of operating our business that minimise our impact on the planet.

Florian Broemel

General Manager
