

# IN & AROUND <sup>W14</sup>

We are your West London's Neighbourhood Hideaway.

Our cherished location is an authentic London residential neighbourhood, a stones throw from the vibrancy of Shepherd's Bush, White City, and well connected to the heart of London.

## REFASHIONED COCKTAILS

Pop in to our Studio Bar to taste our new refashioned & deconstructed cocktails. We've taken a few of our favourite British cocktails, and given them a theatrical and delicious make over!

## PUTTSHACK

WESTFIELD LONDON

Puttshack has taken the traditional game of mini golf and fused it with space-age technology to create an experience never seen before. With its automatic point scoring, leader-boards, and intuitive play, Puttshack is the first super tech indoor mini golf experience. Perfect for a work do or fun with friends.

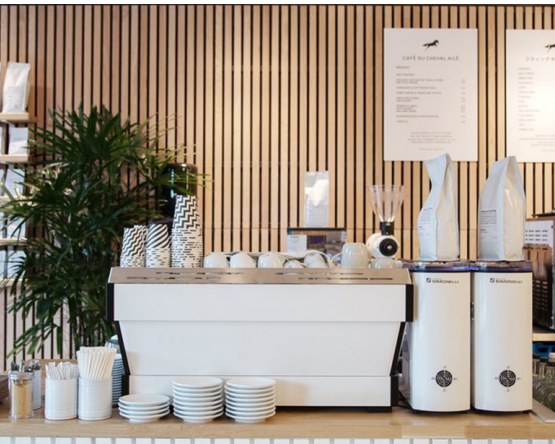

## KERBISHER & MALT

The award-winning Fish & Chips is only a 10 min walk from the hotel. Their freshly-caught fish are from sustainable sources while the chips are double fried to give them the ultimate crispy on the outside, fluffy on the inside texture.  
Just yummy!

## ELEPHANT WEST

Elephant West is a repurposed petrol station for the culturally curious. The café serves as a meeting place for the city's arts community and by night it is DJing hotspot and bar. All this right next to the White City station.

## FLYING HORSE CAFE

This artisan roastery is a new addition to the Television Centre offering. The founders are on a mission to roast & deliver the highest quality & most sustainably sourced green beans from around the world.
