TEA REX

The K West Bespoke Tea is an exciting blend of strong black tea leaves; mellow green tea leaves, natural cherry flavouring, peony flowers and fragrant rose petals with a dash of peppercorns for an extra twist. The brew itself is characterised by a bold, distinctively smoky flavour with a soothing floral undertone and a pleasant spicy after taste. This bespoke tea is ideal for anyone looking for a more daring cup of tea!

...after all, who said tea has to be boring?
